

YEARS 3-7

3RD WORLD 1ST CLUB

Help increase awareness of extreme poverty in poor countries through small acts that can lead to big changes.

Partnered with the Sophia foundation for children in Kenya, the club's main aim is to raise funds and increase awareness of extreme poverty in poor countries. In school, each Mentor group adopts one child, contributing 20 euros per month. The main event of this club is: a big fundraising fair with stalls selling various items; students and teachers being sponsored to fast 24 hours in order to show support to the children who have no food; sale of items made by parents of children we support in Africa and many other activities.

For more information, please see Mr. Nicos Anastasiou.
