

YEARS 1-7

# GEOGRAPHY CLUB

---

Learn to appreciate humanity by observing and celebrating fragments of geography around you.

If you are naturally curious about the world around you, join us in exploring geography through hands-on activities and experiences. You will also get to explore the regional and environmental issues affecting our island.

Students interested in learning more about the environment and the natural world around us will find this club appealing.

*For more information, please see Mr. George Michael.*
