

YEARS 2-7

GERMAN CLUB

Step outside your comfort zone by getting to know more about the German culture.

The German Club is a club especially for students who are learning German, but also for those curious about German traditions. The purpose of the German Club is to promote the German language and culture. This club organises various activities that incorporate the language and culture of Germany, which help the students become immersed in the language taught at school.

The club encourages all students to participate and is always seeking new members.

For more information, please see Ms. Keti Papalysandrou.
