

YEARS 1-3

INNOVATION HUB

Expand your knowledge in various topics through the use of technology!

This is a cross-curricular project-based club, which provide the opportunity for students to develop their group-working skills, communications skills, problem solving skills but also consolidate and expand their knowledge in various topics through the use of technology. Skills aimed to be developed in 2019-2020 are: basic and advanced programming through the use of Scratch and Makey Makeys.

For more information, please see Ms. Andrea Charalambous and Ms.Constantina Symeou.
